ADMINISTRATOR'S REPORT

Nobles County took no action and allowed the district's office lease to renew. The rental rate in 2022 will be the same as last year.

Water is still running out of Ocheda at a rate great enough to maintain open water between the lake and Peterson Slough. The lake's level remains steady at about 0.4 feet below the dam crest elevation. The dam's fish screens were raised yesterday to prevent ice buildup there.

Ice thicknesses and dissolved oxygen concentrations will be measured in Lake Ocheda regularly this winter starting next week.

Carp Solutions, Inc. will be contacted soon about providing services for Lake Okabena carp population control. Scott Deslauriers will also be contacted and reminded that the district will subsidize carp removal in the lake at a rate up to \$3500 per haul.

A letter engaging Dennis Rick, Ltd. to do the 2021 financial audit was signed and will be mailed soon.
